ECO-Center - European project for adults training in clean environment

ECO-Center project aims at creating a new type of strategic partnership for realization of EU policy through research in education, introduction of new training concepts and development of new flexible training program in the field of clean environment.

ECO-Center project philosophy is in compliance with the European policies for investment in education and innovation management for successful transition to knowledge-based economy and society.

ECO-Center project offers a training scheme that assures transparency and better understanding of trainees' qualifications.

ECO-Center qualification recognition model concerns teachers, trainers, learning facilitators, guidance professionals, school/institution managers and political decision makers.

ECO-Center – strategic multipurpose Center

ECO-Center is created within the ERASMUS+ Programme; Key Action 2: Cooperation for Innovation and Exchange of Good Practices; Strategic Partnerships in the Field of Education, Training and Youth.

ECO-Center is a pilot educational center for creation and development of strategies and actions designed to improve competitiveness of the target groups.

ECO-Center unifies Universities, research centers, enterprises, social partners building a bridge between formal and non-formal educational systems.

ECO-Center aims at bringing expelled staff and employees back to work in a future oriented industrial sector focusing on SMEs as a driving force in national economy.
